2. CITATIONS AND EXPLANATIONS

Claims 1-20 meet the criteria set out in PCT Article 33(2)-(3), because the prior art does not teach or fairly suggest a hammock comprising four legs, four support rods, and a pair of braces with the legs, the support rods and the braces being coupled to each other such that the hammock stand collapses in a single movement in which two of the four legs approximate each other as two of the support rods pivot towards each other.

Claims 1-20 meet the criteria set out in PCT Article 33(4), and thus possess industrial applicability because the subject matter claimed can be made or used in industry.
